

**Friends of Glen Goyle – RAG Report for STC Environment Cttee
– 16th March 2026**

AMBER ISSUES: Requests for attention

FOGG is making progress on reinstating the path that runs from Glen Goyle across the top of the lawn to the stream:

- We have secured an initial plan from a professional surveyor gratis
- We have contacted local construction companies, who have got back to us to arrange initial site meetings
- We have in principle secured match funding to build the path from a local charitable foundation, to match the generous provisional offer of a grant from the STC's Environment Cttee

We will be in touch with the Cttee again, once we have quotes from contractors to further progress the project.

Thank you.
